Key Skills: Java

During the program, I have specifically worked on the fundamentals of the Java programming language which include things like Object-Oriented Programming (OOP), such as inheritance, polymorphism, encapsulation, and abstraction. I was able to gain new practical skills.

PROJECTS

Library Management System

Key Skills: Javascript   Node.js   MongoDB   Express   CSS

A Library Management System using CRUD operations (Create, Read, Update, Delete) is a software solution designed to handle the operations of a library effectively. The main purpose of the system is to manage the database of books, users, and transactions efficiently.

Weather App

Key Skills: React.js   API

Project Link: https://weather-app-henna-delta-63.vercel.app/

Developed a responsive weather application using React.js and integrated it with a third-party weather API to display real-time weather data for any location. Added features such as search functionality, dynamic icons, temperature details, and error handling for invalid locations. Enhanced the user experience with a clean and interactive UI.
